Summary: this exercise illustrates how the pdf can be tailored to the exercise.

Listing 1: main.ih

```
#include <iostream>

#include "demo/demo.h"

using namespace std;
```

This info is shown between main.ih and main.cc

Listing 2: main.cc

```
#include "main.ih"

int main(int argc, char **argv)
{
    Demo demo(argc);

    demo.show();
}
```
